## Letter from the President

It appears summer has finally decided to cook us with a vengeance! With the stationary high parked over our great state, the outlook for moisture is dim for the foreseeable future. The welcomed rains from 3 weeks ago have allowed many to make another cutting of hay this past week, especially in East Texas. Those who did are in a little better shape than the majority of the state which remains dry to parched.

As we look forward to summer ending (in a couple more months) and transitioning into the fall calving season, hopefully we will be met with some cooler, wetter weather! Yes, we can look forward to better times hopefully! This is what I have always admired about farmers and ranchers.....no matter what mother nature bestows upon them whether, drought, floods, army worms, wind & storms, they are a resilient breed of Americans, and Texans are the toughest!

As I promised in the last newsletter, the complete NJBS and FUTURITY results are below. Congratulations to the winners and to all those who completed in the shows. It was a great week and we look forward to having the 2014 NJBS in College Station next July.

Until next time, take care in the heat, stay hydrated!

Joe Dillard, TBBA President
