**Join Us at the Beautiful Tenroc Ranch on Friday, April 3rd for the TBBA General Membership Meeting at 6 pm and Dinner at 6:30 pm! Sale starts at 10 am on Saturday!**

# TBBA

## CONVENTION & SALE

*Dedicated to Steve Densmore*

James Stephen "Steve" Densmore, 79, of Bryan, passed away on Saturday, February 14, 2026. He was born on May 9, 1946, in Memphis, Tennessee, to James and Nola Densmore.

Steve is survived by his former wife, Mary; their daughter, Maggie; and his granddaughter, Tarynn. He is also survived by his sister, Gloria Bates (Tom); his nephews, Joe Cockerham and Gilbert Bates; his niece, Christina Bates; his aunt, Patsy Bible; and many cousins and friends.

He was preceded in death by his parents, James and Nola Densmore, and his sister, Linda Cockerham of San Antonio, Texas.

Steve dedicated his life to advancing the Brangus breed. He began his career at Camp Cooley Ranch in 1973, where he met Mary. Over the years, he worked with Granada Land & Cattle and Horizon Land & Cattle before eventually joining Circle X Land & Cattle.

He served the International Brangus Breeders Association in many capacities, including as President from 2002 to 2003, as a member of the Board of Directors, on the International Junior Brangus Breeders Association Advisory Board, and on numerous committees. He was also deeply involved with the Texas Brangus Breeders Association, serving as its President.

Steve had a special passion for supporting youth programs and devoted more than two decades to serving as an advisor to the Texas Junior Brangus Breeders Association.

During his career in the cattle industry, he received numerous honors, including Brangus Breeder of the Year in 2013 and the Georgeanne Myers Supporter of the Year Award. His dedication to the Brangus breed and his unwavering support of junior programs left a lasting and meaningful impact.

In lieu of flowers, memorial donations in Steve's name may be made to the International Brangus Auxiliary Scholarship Fund and mailed to: IBA Treasurer, Connie Smart, P.O. Box 590, Runge, TX 78151

Express condolences with the family at [www.CallawayJones.com](http://www.CallawayJones.com).

*A Legacy of Leadership and Friendship!*

# Spring Spectacular Sale

WELCOME

Welcome to the 2026 TBBA Spring Spectacular, the highlight of the year for the Texas Brangus Breeders Association. As a Brangus breeder myself since 1998, this sale has always represented an opportunity for breeders from across the state to showcase their very best. The historic prices of cattle all across the industry indicate we are in a golden age for seedstock business and

optimism within the Brangus breed is approaching an all-time high. This sale represents a great opportunity to grow and improve your respective programs with genetics from the most progressive programs.

This year I have been working with your sales chairman, Megan Greenwood, to assemble a set of sale cattle that not only

represent the membership of this organization but also offer genetic progress and quality from top to bottom. As always, this offering is highlighted by a deep set of open and bred heifers that rival any offered this spring. They represent some of the most sought-after sires, name-brand cow families and respected programs in the country.

Please make plans to join us on April 4th in Salado, Texas, for this annual event. If you cannot be with us, please make plans to tune in with our industry partners DVAuction.com, to watch the sale and place your bids. If you have any questions about the sale or if we can assist you in any way, please call or text. I'd be happy to help! See you on sale day!

**Garrett R. Thomas**  
936-714-4591

On behalf of the Texas Brangus Breeders Association, I would like to personally welcome you to the TBBA Spring Spectacular Sale on Saturday, April 4, 2024, beginning at 10 a.m. at the beautiful Tenroc Ranch near Salado, Texas. The Bluebonnets are in full bloom in the Hill Country of Texas and this is a wonderful time of the year to see great Brangus cattle and beautiful scenery. This sale has become the premier regional association consignment sale in the Brangus breed and we are excited for you to look through this offering and make selections to impact your Brangus breeding operation. The cattle industry and the Brangus breed, specifically, are seeing outstanding demand with the focus on top-quality genetics that will satisfy the customer. The offering is deep in both phenotype and genotype as the consignors have brought you cattle that proudly represent their programs. The cattle will be available for viewing on Friday afternoon, April 3rd and the sale will start at 10 a.m. on Saturday and should be completed by noontime. There will be trucking available for those who cannot make the sale and may wish to purchase their cattle via DV Auction. If you have any questions about the offering, contact Garrett Thomas, Sale Manager or Megan Greenwood, Sale Chairman they would be more than happy to discuss the cattle with you.

We would also invite you to the TBBA Annual Meeting on Friday afternoon and for great food and fellowship that evening. We look forward to seeing you in the beautiful Texas Hill Country in Salado!

Best Regards,

**Brad Cotton**  
TBBA President

**Please bring this catalog  
with you to the sale.**

WO Miss Queen 10K12

This 10 cow family female traces back to BWCC genetics on both sides of the pedigree and offers an elite phenotype that is sure to make her a sale day favorite. Her attractive front third, combined with her massive center body, is only the beginning of her unique traits. This proven pedigree promises to return big dividends in the very near future. **Confirmed safe to DDD Master Design 150G23, R10447505. ECD: shortly after sale day.**

6B Miss Crossover 246H2

The 246-cow family was the first of many building blocks at the 6B program. Known for their moderation, power and fertility, they have become a mainstay in Florence, Texas. This mating to the Master Design bull is one that has proven quite valuable over the years, and you can buy with confidence that this first calf likely pays for the cow. **Confirmed safe to DDD Master Design 150G23, R10447505. ECD: Late April 2026**

This one was tough on us, and ultimately, we decided to offer the best we could. The females that come from this cow family are as fertile as they come, easy fleshing, and will raise a calf with the best of them. But what really highlights this female is the topline, CB New Standard 817J3, whose progeny dominated the sale market last fall. This heifer has tons of growth, super maternal, and will wean you the biggest calf each year. AI'd to DMR Admiral 535K13, R10505245 on 1/2/26. Confirmed bred via ultrasound to AI on 2/28/26.

CB New Standard 817J3 - Sire of Lots 8, 24

This past December, the demand for these Frontline daughters was really strong and after you see this female, you'll understand why. From the side, this female has great line, a high neck set and still sets down with real substance at the ground. Big time replacement with plenty of long-term earning potential! **Sells exposed to DDD One Source 103A4, R10242621 from 12/3/25 to 1/30/26. Pregnancy information available on sale day.**

HR Ms Monument 415M is a direct daughter of the infamous 415A7 Coronado donor, a cornerstone female with nearly 200 progeny recorded to date, a cow family that has proven itself time and time again in both production and predictability. This heifer is ultra-feminine and eye-appealing, long spined, and stands on a solid set of bone and feet. She combines the look, longevity and structural integrity with a balanced EPD profile. Take note of her calving ease, maternal strength, and carcass merit all aligned, highlighted by an impressive +10 Milk EPD that supports added value in her replacement daughters. She sells safe in calf to DMR Prosperity 99L2, whose first calves are already exceeding expectations with added power, thickness, and quality. **AI'd to DMR Prosperity 99L2, UB10534813 on 12/23/25. Confirmed bred to AI.**

468M3 is a super attractive UB2 female that does everything right! She's one that has the look and performance any cattleman wants, time and time again. She's out of a Basin Payweight 1682 daughter whose sire is an exceptional bull in the Angus world. Her dam 468H1 earned her way to the donor pen through proven performance! And a Big Town son we purchased from Briggs who has been outstanding herd bull leading us to keep multiple females from his consistency and performance. She carries a super balanced set of EPDs with 15 traits and indexes in the top 35%. All this with a +14 Milk! She's so well put together with performance and eye appeal in a moderate package that makes it hard to let her go! **AI'd to CB Finished Product 63L10, 10523971 on 12/18/25. Pasture exposed to CB Vigilante 75M19, 10559741 from 12/22/25 to 3/18/26.**

Here's a female from the famed 803 cow family who has a pedigree that speaks for itself. She comes from a SAV Raindance 6848 daughter whose sire needs no introduction for his prominent role in producing top quality females. She's out of 535G2, a Big Town son we love. She has a half-sister in this sale to the same sire; look at the consistency and quality of these half sibs. She has an impressive set of EPDs with 13 Traits and indexes in the Top 25% with WW, YW and scan data that packs a punch, including a 13.5-inch REA. Flashy from all sides, with a world of potential! Don't miss out on a good one. **AI'd to BWCC Hugo 484H7, R10472434 on 12/18/25. Pasture exposed to CB Finished Product 63L10, R10523971 from 12/22/25 to 2/18/26 and to CB Vigilante 75M19, R1059741 from 2/19/26 to 3/18/26. Pregnancy information available on sale day.**

915M2 is an Empower daughter out of a Majestic Beacon dam. Her paternal great-grand sire is the famous Never Surrender of Salacoa 803D9 sire, whose WW and YW EPDs are in the top 1% percent of the breed! Her maternal great-grand sire, Suhn's Majestic Beacon 30C, is in the top 3% for WW and the top 1% for YW. She has the pedigree along with plenty of body and bone. 915M2 is bred to 60L16, the \$10,000 sire purchased from Cavenders in 2024. 60L16 is sired by the CB Freightliner 627H7 stud and is a grandson of CB Capital Gain 924D19. **Pasture exposed to CB Freightliner 60L16, UB10523809 from 12/19/25 to 2/19/26.**

Powerhouse Perfect Storm donor prospect here that will turn your head and keep you riveted with her exceptional style, along with base width and expressive dimension that is impressive from every angle. "Stormy" has a maternal half-sister that just sold to Cavender Ranches last fall for \$18,000 and their donor dam is CFC MISS BIG LAKE 23H, one of our famous Big Lake sisters that we own with FENCO Farms and is a picture-perfect Brangus female who sold for \$20,000 for 1/2 Embryo Interest. "Stormy" also has the genomic strength to have 12 Traits in the Top 1/3 of the breed! This heifer will certainly be one of the features of the sale and has a world of potential with her superior genotype, along with the stunning phenotype that is such a rare combination. Selling Open. Cross F Cattle is retaining the right, at buyers' convenience and Cross F Cattle's expense, to future IVF, resulting in at least 8 viable embryos.

CFC Miss Big Stormy 23N6

The dam of this heifer has done a really nice job for us, posting a 359-day calving interval on six calves. She's a smooth-made, big-footed and has plenty of middle along with a very balanced EPD profile - headlined by double-digit milk. Fertility and style never get old - take this one home and mate her to a bull of your choice.

HR Ms Powerpack 512N9 is an open, ready-to-breed female backed by proven earning power. She is a full sister to the 512M bull who commanded \$18,000 last November, confirming the strength of this mating. She represents her name well as she is loaded with power and volume, bold in her rib shape, and stands on a superb set of feet and bone. Her dam is a female that earned her way into the donor pen the right way, by proving herself year after year through the quality of calves she raised. That kind of cow family backing adds confidence to every generation. On paper, she complements her phenotype with an EPD profile that blends growth, maternal strength, and carcass, highlighted by an impressive +13 Milk EPD. A balanced, high-capacity female with the cow family backing to make a lasting impact.

HR Ms Powerpack 512N9

The first Steadfast calf to sell at auction! This young female will just be scratching 12 months on sale day, but she is already displaying all the indicators that she will be a profitable cow. Her depth of body, athleticism, and gentle temperament are consistent across all Steadfast calves. Beyond that, she has an elite set of EPD traits that balance to achieve top 20% for both indexes. We have already retained two daughters out of her young dam, 924K, including a flush mate to 924N2.

GCC Miss Steadfast 924N2

This year's catalog is rounded out by a female who was a fan favorite on picture day. On the move, this female is extremely functional, easily filling her stride and then when she comes to a stop, she commands your attention with a striking profile and sweeping rib shape. While this one is at the end of the catalog, you can count on her finding her way to the top of the sale order in April.

MB Ms Big Lake 2051N3

# Spring Spectacular Sale

## TERMS & CONDITIONS

### BIDDING

Each animal will be sold to the highest bidder without reserve. The auctioneer will settle any disputes as to bids, and his decision on such matters shall be final.

### TERMS

Each animal becomes the risk of the purchaser as soon as sold, but it shall be the obligation of the seller to see that animals are fed and cared for until loaded for shipment or until the expiration of 48 hours after the sale, whichever occurs sooner. After 48 hours a maintenance fee of \$5 per day will be assessed until pickup unless the female owner or TBBA Sale Committee arranges shipment.

### SIGHT UNSEEN PURCHASES

Buyers may purchase females or bulls through the owners or Hi Point Sales & Marketing personnel at auction without viewing the cattle. For sight unseen purchases, the buyer has the right of inspection at the time of delivery. If the animal is deemed unsatisfactory, it may be reloaded on the delivery truck and returned to female or bull owners ranch at no obligation to the buyer. All transportation expenses will be the responsibility of the seller. If the animal is deemed unsatisfactory within one week of the purchase, the buyer may at their expense, return the animal to the female owner's ranch for a full refund of the purchase price.

### CERTIFICATE OF REGISTRY

A transferred certificate of registry will be furnished to the purchaser for each registered animal once proper settlement has been made.

### HEALTH

Health papers suitable for interstate shipment will be furnished on all animals.

### ANNOUNCEMENTS

Any changes from the information of any kind in this catalog will be provided in a sale day supplement sheet or announced from the auction block and such information shall take precedence over cataloged information.

### BREEDING GUARANTEE

1. All animals are guaranteed to be breeders with the exception of: a) calves under 12 months of age; b) animals shown by purchaser after sale in which the guarantee (if any) shall be between the seller and the buyer; c) injury or disease occurring after the sale; d) gross negligence or willful misconduct on the part of the purchaser; e) death by any reason.
2. Safe in calf females have been examined by competent personnel and are so guaranteed.
3. Exposed females have been exposed but are not guaranteed to be safe in calf.
4. Open females have not been served and are so guaranteed.
5. Donor Females. a) A female is not guaranteed to be a breeder after the date of the sale when that female is to be used or attempted to be used, in an embryo transfer program, unless by separate agreement between the buyer and seller. b) Embryo transfer guarantee. Even though it is possible some of the female lots have worked successfully in our embryo transfer program in the past, and should in the future,

there is no guarantee or warranty on future embryo production of any lot. Flush records are available upon request.

6. Any bull which settles cows by natural service and passes a fertility test made by competent veterinarians, mutually agreed upon by the buyer and seller, during any six month period of trial (provided for in paragraph 2 of the section of these sales terms and conditions entitled "Options and Privileges of Return or Adjustment") shall be considered a breeder. All partial interest bulls are guaranteed to produce freezable quality semen.

7. This is not a life insurance policy. Seller will not replace a dead animal if it is killed or dies for any reason. We would suggest that normal care still needs to be exercised toward these animals and that yearling bulls should be fed so they can continue to develop properly.

### PREGNANCY DETERMINATION

The registered females in this sale noted safe in calf have been determined pregnant by physical palpation or ultrasound technology. Our best estimate of service sire will be given in the case of the females with both an A.I. sire and a natural breeding sire.

### OPTIONS AND PRIVILEGES OF RETURN OR ADJUSTMENT

1. All claims for adjustment or refund must be made in writing within six months of the sale date.
2. In the event an animal is claimed to be a non-breeder, the animal may be returned to owner's ranch, if in good condition and complying with the health requirements of their state. The seller shall be entitled to a six month trial following the return of the animal in which to prove that the animal is a breeder. If at the end of six months the seller is unable to prove the animal is a breeder, the seller shall at the option of the buyer replace the animal with another of equal value or issue a credit for the initial selling price. If the seller proves the animal to be a breeder, it shall be the obligation of the purchaser to take delivery of the animal and pay all expenses incurred for transportation.
3. If an animal is sold and at a later date proves not to be eligible for registration under association rules, the seller shall be obligated to make a satisfactory adjustment on the purchase price to the buyer, refund the purchase price or issue a credit for the initial selling price upon the return of the animal to the farm of the seller.
4. If an animal is sold and through DNA is proven to have incorrect parentage as represented by the certificate of registration, and for which the parentage can be determined, the seller shall be obligated to make a satisfactory adjustment on the purchase price to the buyer, refund the purchase price or issue a credit for the initial selling price upon the return of the animal to the farm of the seller.

### RIGHTS AND OBLIGATIONS

1. The above terms and conditions of sale shall constitute a contract between the buyer and seller of each animal and shall be equally binding on both. Other than the guarantees and warranties stated above, no other warranties or guarantees are expressed or implied. Each sale or resale of an animal constitutes a separate transaction.
2. Neither female or bull owners or TBBA Sale Committee nor any other person connected with the management of the sale, assumes any liability, legal or otherwise.
